UNIVERSAL PASSPORT This is more than just an incubator for start-ups.

By giving our international legal infrastructure and DAO technology to impact projects that serve Club DAO's intentions, we can collectively build a transparent economy in service to the planet and the people, and give back to the community that built it, without feeding the old machine.

This is an incubator for the new paradigm; the conscious economy!

The Universe Ministry (FBO) can create an infinite number of PMA's, which are for-prosperity tax exempt structures perpetually fuelling The Universe to fulfill its intentions.

An anchor DAO can create an infinite number of DAO's, and serves as the governance, membership and operating tool.

PMA's are the legal wrapper to the DAO.

By activating a PMA and DAO, you are contributing to the development of the conscious economy.

Your success is what fuels The Universe, so we are motivated to support you in every way we can.

We unite the soul family and light leaders in Bali every April, to develop relationships, realise our place in the collective mission, grow the network of PMA's and DAO's, as well as uplift and support each other in the fulfilment of dharma.

We invite you to leverage this container, expand your network, host meetings on site, participate in programming that's relevant to you, and unlock new levels of creativity

This is the conscious WEF.

For large scale international organizations and ecosystems.

For dragons; trillion dollar companies.

For start-ups and impact entrepreneurs.

For all those with dharma walking this path in service to The Universe.
